MISSIONS ET OBJECTIFS DU STAGE

The internship aims to provide the student with meaningful professional experience that bridges academic learning and real-world application. The primary mission is to develop the student's technical, analytical, and interpersonal skills by engaging in practical tasks, projects, and problem-solving activities relevant to their field of study. For the employer, the internship offers the opportunity to contribute to the student's professional development while benefiting from their fresh perspectives, motivation, and emerging expertise. The objectives include enhancing the student's understanding of workplace dynamics, fostering autonomy and teamwork, and allowing the employer to evaluate and mentor potential future talent in a collaborative, mutually beneficial environment.
